Fatal Occupational Injuries in Alabama – 2015

Fatal work injuries totaled 70 in 2015 for Alabama, the U.S. Bureau of Labor Statistics reported today. Regional Commissioner Janet S. Rankin noted that the number of work-related fatalities in Alabama was down from 75 in the previous year. Fatal occupational injuries in the state have ranged from a high of 155 in 1996 to this year's low of 70. (See [chart 1](#).)

Nationwide, a total of 4,836 fatal work injuries were recorded in 2015, a slight increase from the 4,821 fatal injuries in 2014, according to the results from the Census of Fatal Occupational Injuries (CFOI) program.

Chart 1. Total fatal occupational injuries, Alabama, 2006–2015

SOURCE: U.S. Bureau of Labor Statistics.

Type of incident

In Alabama, transportation incidents resulted in 37 fatal work injuries, accounting for more than half of the workplace fatalities in the state. Falls, slips, or trips resulted in 10 fatalities and contact with objects and equipment accounted for 9 fatalities. (See [table 1](#).) The number of worker deaths from transportation incidents increased from 34 in 2014. Worker fatalities due to falls, slips, or trips and contact with objects and equipment were little changed from the prior year. A fourth category, violence and other injuries by persons or animals, resulted in 5 work-related deaths in 2015, down from 17 in 2014.

Nationally, transportation incidents were the most frequent fatal workplace event in 2015, accounting for approximately 42 percent of fatal work injuries. (See [chart 2.](#)) Falls, slips, or trips was the second-most frequent type of event (17 percent), followed by contact with objects and equipment (15 percent).

Chart 2. Fatal occupational injuries by selected event, United States and Alabama, 2015

Industry

The private transportation and warehousing industry sector had the largest number of fatalities in Alabama with 16, similar to the count in the previous year. (See [table 2.](#)) Transportation incidents was the most frequent fatal event in the transportation and warehousing sector with 15 worker deaths. Half of those fatally injured in this sector worked in specialized freight trucking.

The private construction industry had 14 workplace fatalities, up from 11 in the previous year. Specialty trade contractors accounted for nine, or 64 percent, of the fatal injuries in this industry.

Occupation

Transportation and material moving occupations and construction and extraction occupations had the highest number of workplace fatalities with 26 and 13, respectively. (See [table 3.](#)) The majority of the fatalities within the transportation and material moving group were heavy and tractor-trailer truck drivers (22). Construction trades workers accounted for 9 of the 13 fatalities among construction and extraction workers.

Additional highlights

- Men accounted for 90 percent of the work-related fatalities in Alabama, similar to the 93-percent national share. (See [table 4.](#)) Transportation incidents made up 51 percent of the fatalities for men in Alabama.
- White non-hispanics accounted for 67 percent of those who died from a workplace injury, matching the national share.
- Workers 25-54 years old accounted for 60 percent of the state's work-related fatalities in 2015, compared to 57 percent of on-the-job fatalities nationally.

- Of the 70 fatal work injuries in Alabama, 87 percent worked for wages and salaries; the remainder were self-employed.

Change in the Census of Fatal Occupational Injuries (CFOI) News Release Schedule

Beginning with the 2015 reference year, CFOI will publish a single, annual release with no revisions. A similar schedule will be followed in subsequent years. Preliminary releases, which normally appeared in August or September in past years, will no longer be produced.

Technical Note

Background of the program. The Census of Fatal Occupational Injuries (CFOI), part of the BLS Occupational Safety and Health Statistics (OSHS) program, compiles a count of all fatal work injuries occurring in the U.S. during the calendar year. The CFOI program uses diverse state, federal, and independent data sources to identify, verify, and describe fatal work injuries. This ensures counts are as complete and accurate as possible. For the 2015 data, over 21,400 unique source documents were reviewed as part of the data collection process. For technical information and definitions for CFOI, please go to the BLS Handbook of Methods on the BLS web site at www.bls.gov/opub/hom/pdf/homch9.pdf.

Federal/State agency coverage. The Census of Fatal Occupational Injuries includes data for all fatal work injuries, whether the decedent was working in a job covered by the Occupational Safety and Health Administration (OSHA) or other federal or state agencies or was outside the scope of regulatory coverage. Thus, any comparison between the BLS fatality census counts and those released by other agencies should take into account the different coverage requirements and definitions being used by each agency.

Acknowledgments. BLS thanks the Alabama Department of Health for their efforts in collecting accurate, comprehensive, and useful data on fatal work injuries. BLS also appreciates the efforts of all federal, state, local, and private sector entities that provided source documents used to identify fatal work injuries. Among these agencies are the Occupational Safety and Health Administration; the National Transportation Safety Board; the U.S. Coast Guard; the Mine Safety and Health Administration; the Office of Workers' Compensation Programs (Federal Employees' Compensation and Longshore and Harbor Workers' Compensation divisions); the Federal Railroad Administration; the National Highway Traffic Safety Administration; state vital statistics registrars, coroners, and medical examiners; state departments of health, labor, and industrial relations and workers' compensation agencies; state and local police departments; and state farm bureaus.

Information in this release will be made available to sensory impaired individuals upon request. Voice phone: (202) 691-5200; Federal Relay Service: (800) 877-8339.

Table 2. Fatal occupational injuries by industry, Alabama, 2014–15 - Continued

Industry ⁽¹⁾	2014	2015	
	Number	Number	Percent
Local government.....	4	8	11

Footnotes:

(1) Industry data are based on the North American Industry Classification System, 2012.

(2) Includes fatal injuries at all establishments categorized as Mining, quarrying, and oil and gas extraction (Sector 21) in the North American Industry Classification System, 2012, including establishments not governed by the Mine Safety and Health Administration (MSHA) rules and reporting, such as those in Oil and Gas Extraction.

(3) Includes fatal injuries to workers employed by governmental organizations regardless of industry.

NOTE: Data for all years are final. Totals for major categories may include subcategories not shown separately. Percentages may not add to totals because of rounding. CFOI fatality counts exclude illness-related deaths unless precipitated by an injury event. Dashes indicate no data reported or data that do not meet publication criteria.

Table 3. Fatal occupational injuries by occupation, Alabama, 2014–15

Footnotes:

(1) Occupation data are based on the Standard Occupational Classification system, 2010.

NOTE: Data for all years are final. Totals for major categories may include subcategories not shown separately. Percentages may not add to totals because of rounding. CFOI fatality counts exclude illness-related deaths unless precipitated by an injury event. Dashes indicate no data reported or data that do not meet publication criteria.

Table 4. Fatal occupational injuries by worker characteristics, Alabama, 2014–15

Worker characteristics	2014	2015	
	Number	Number	Percent
Total	75	70	100
Employee status			
Wage and salary workers ⁽¹⁾	60	61	87
Self-employed ⁽²⁾	15	9	13
Gender			
Men	68	63	90
Women	7	7	10
Age ⁽³⁾			
18 to 19 years	1	1	1
20 to 24 years	--	6	9
25 to 34 years	11	11	16
35 to 44 years	15	12	17
45 to 54 years	14	19	27
55 to 64 years	21	13	19
65 years and over	11	8	11
Race or ethnic origin ⁽⁴⁾			
White, non-Hispanic	49	47	67
Black or African-American, non-Hispanic	21	18	26
Hispanic or Latino	--	3	4

Footnotes:

(1) May include volunteers and workers receiving other types of compensation.

(2) Includes self-employed workers, owners of unincorporated businesses and farms, paid and unpaid family workers, and may include some owners of incorporated businesses or members of partnerships.

(3) Information may not be available for all age groups.

(4) Persons identified as Hispanic or Latino may be of any race. The race categories shown exclude Hispanic and Latino workers.

NOTE: Data for all years are final. Totals for major categories may include subcategories not shown separately. Percentages may not add to totals because of rounding. CFI fatality counts exclude illness-related deaths unless precipitated by an injury event. Dashes indicate no data reported or data that do not meet publication criteria.
